

Floater: 1g / Fishing line: 250"

Unwind the casting line, find a stick and tie the fishing line to it. Put a worm or other bait on the hook. Learning to fish takes patience so make sure to cast away and have fun! The fish-shaped holder is equipped with fishing line (250in/635cm), floater (1g/0.04oz) weight and hook.

Use the Huckleberry knife to carve your own fishing pole.

Caution: sharp hook!
